PP DS

Legrand AV being the global specialist in electrical & digital building infrastructures, It's comprehensive offering of solutions for commercial, industrial & residential markets makes it a benchmark for customers worldwide. In the AV space, Legrand AV offers an extended portfolio of branded audio-visual products including flat panel mounting solutions, projector mounts, projection screens, equipment racks, PTZ cameras & furniture for AV markets. It's innovative products are sold under the brand names like Chief, Da-Lite, Middle Atlantic, Projecta, Vaddio, Luxul & C2G.

DA-LITE®

A brand of 

Da-Lite is the leading producer of high quality commercial & residential projection screens globally. Da-Lite manufactures & provides projection surfaces, screens and accessories to organizations & venues around the world.

Today Da-Lite's proprietary screen technologies are specified for the most demanding installations from military training simulators to boardrooms and classrooms to home theatres. Surfaces formulated by Da-Lite chemists & optic technicians are simply the best for your image.

Each Da-Lite surface is specifically formulated to preserve, and in some cases enhance, every pixel projected resulting in expert clarity, rich contrast, vivid colours & brightness.

PROJECTA

Projecta is Europe's leading manufacturer of high quality projections screens & audio visual furniture. It designs, develops and builds an extensive range of projection screens in the largest projection screen manufacturing facility in Europe, located in Weert, the Netherlands. Projecta formulates & develops proprietary projection surfaces to ensure a projection surface for any application with a constant high quality.

CHIEF®

A brand of **legrand**

Chief is committed to responding to industry needs in the commercial & residential markets. Chief offers a complete line of mounts, brackets & accessories for TVs, displays, projectors & other AV components. Chief delivers high-quality products that are innovative & easy to install & maintain.

Chief focuses on commercial AV flat panel & projector mounts. Home theatre, Workstation & Custom Display Solutions are also part of the Chief product offering. Known in the industry for high quality mounts with both Custom & Universal options, as well as an extensive accessory line, Chief is focused on professional installations worldwide.

MIDDLE ATLANTIC.

A brand of **legrand**

Middle Atlantic Products are a part of the AV Division of Legrand AV & manufactures exceptional support & protection for products to mount integrated AV systems in Residential, Commercial, Broadcast & Security applications since 1979.

All products are designed & engineered in the US to maximize system reliability & to meet the needs of installers; from thermal considerations and built-in cable management, to pre-installed washers on our rack screws, we build in ways to save time & simplify the job. At the heart of every installation, you'll find Middle Atlantic Products - what great systems are built on.

LUXUL®

A brand of **legrand**

Luxul is the leading innovator of simple-to-deploy professional grade AV - IP networking solutions for use by custom installation professionals. Designed for use in both residential & commercial environments, the Luxul family offers a complete line of solutions that simplify network design & deployment — resulting in a scalable network that is both powerful & easy to install. With Luxul, installers can deliver the ultimate AV - IP network without the complexity associated with traditional networking gear.

C2G®

A brand of **legrand**

C2G is an industry leading manufacturer of high performance cabling & connectivity solutions. Founded in 1984 as Cables To Go, C2G provides end-to-end connectivity solutions serving a variety of markets including corporate, digital signage, education, healthcare, home theater and hospitality. In 2014, C2G joined the Data Communications division of Legrand, a leader in network infrastructure solutions, with products designed to support data center, building network or audio/video applications.

Now, as a brand of Legrand, C2G brings a complete portfolio of products & solutions including Audio/Video & PC, Data Connectivity, Physical Infrastructure & Power Management – all designed for installations in data centres, networks & work spaces or to connect a broad range of devices.

LUTRON®

Lutron lighting control products, range from individual dimmers to total light management systems that control entire building complexes. Some of the larger Lutron light control systems in the US include the 52-story New York Times Building in New York, Lincoln Financial Field in Philadelphia & the Orange County Convention Center in Orlando. Lutron is a technology-centered & people-driven company. As a private corporation guided by our founder's simple but profound Five Principles. Lutron has a long history of significant growth and smart innovations. Lutron holds over 2,700 worldwide patents. In addition to the solid-state dimmer, Lutron innovations also include the first electronic dimming ballast for fluorescent lights & the first self-contained preset lighting control system.

lufesize®

Lufesize provides you a connected experience with their Icon series 4K conference room systems & Lufesize Cloud. The Icon series which comprises models of Icon 300, 400, 450, 500, 600, 700 & 800 are simple, easy to use video endpoints which will help you instantly connect over video to anyone. Ideal for rooms ranging from huddle rooms to large conference rooms, these Icon endpoints when paired with the Lufesize Cloud will give you a unique video collaboration experience. Lufesize Cloud is simply the best way for your entire organization to connect over video when you need to get business done. Host free & instant video calls with your team right from your smart phone or browser. Our video conferencing app works when and where you work. No downloads or sign-ups required — just share the link & go.

tvONE is a world class developer and manufacturer of video conversion and AV signal distribution technology. With offices in the US, and R&D and Manufacturing facilities in the UK, tvONE provides a complete line-up of products & solutions for the professional AV, broadcast video, medical imaging & digital signage markets. Following the global merger of tvONE & Magenta Research in July 2013, the company tvONE now encompasses these two superior brands under one umbrella.

The tvONE brand specialises in video, audio & multimedia processing equipment, based on its proprietary CORIO® video processing technology. Products include all-in-one system solutions, multi-window processors, scan converters, seamless switchers, video scalars, up/down/cross converters, analogue-digital converters (SD/HD-SDI, HDMI, DVI), format converters, KVM over IP solutions, ONE rack solutions & standard converters.

Konftel is a leading company & reputed brand, within audio conferencing solutions. Being part of AVAYA group, since 1988, the mission has been to help people around the world to conduct meetings despite distances. Based on the company success, audio conferencing is a great way to save time, money and at the same time contribute to a better environment. Good quality is essential for efficient meetings & that is why the patented audio technology OmniSound® is built into all Konftel phones. Konftel delivers a reliable audio conferencing solution. Their conference solutions are developed with the user in mind in order to provide easy-to-use products with excellent & clever design. Konftel strives to be innovative in everything they do & are strongly committed to continue to build a close & personal relationship with esteemed partners & customers.

WolfVision is a leading global developer and manufacturer of innovative presentation, collaboration & knowledge sharing systems & solutions. WolfVision Visualizers are well-known for their unrivalled imaging quality, which is due to the perfect combination of high quality components & remarkable expertise. High-end lenses provide distortion-free images & high-tech lighting systems deliver smooth & consistent lighting without distracting reflections or hot spots. For larger active learning classrooms and collaboration spaces where multiple workstations are required, Cynap & Cynap Core systems can be integrated together into existing network infrastructure, providing a truly scalable, high performance wireless AV over IP collaborative working & learning environment.

reddot award 2017
honourable mention

Lindy is a global supplier of combined AV & IT connectivity solutions & has been a partner to these industries for many years. Brand assortment includes a wide range of AV products from the simplest USB cables to the most advanced KVM switches; from network cabling solutions to the latest HDTV accessories.

A driving force in the AV industry, we create Professional TVs, Signage Solutions & Business Monitors for every industry & business niche. Our innovations are designed to help you engage with your audience in the most natural form possible with intuitive usability & attention grabbing performance.

ad notam®

GERMAN SMART MIRROR TECHNOLOGY

ad notam is a celebrated inventor, pioneer and one of the leaders in smart glass and mirror technology.

Their products are the integration of both: electronics, such as screens, lighting or other features and glass/mirror surfaces. ad notam acknowledges the equal importance of both elements and continues to develop new and exciting breakthroughs on both fronts.

It is ad notam's philosophy that any product is only as good as it's elements, that's why ad notam is able to provide its demanding clientele with the most cutting-edge technology they deserve.
